

A photograph of a bride and groom standing on a stone path in a lush garden. The bride is wearing a white gown with a long train and a veil, and the groom is in a dark suit. They are holding hands and looking at each other. The garden is filled with various plants and flowers, including yellow lilies and green foliage. In the background, a house with a grey roof and white trim is visible.

ABOUT US

At DP3Band, our mission is to curate unforgettable memories through our exceptional array of luxury wedding services. We pride ourselves on offering unparalleled Live Band, DJ, photography, cinematography, and photobooth services to ensure every moment of your special day is captured and cherished. Our unwavering commitment to customer service excellence ensures a seamless and personalized experience tailored to your unique preferences. As your trusted partner in creating everlasting memories, DSP Weddings is devoted to transforming your dream wedding into a reality.

LIVE BAND OR DJ

LIVE BAND

Pros: Live music is, well, live. You and your guests will experience the pleasure of a performance. Anything can happen to raise the excitement level, from an infectious horn section interlude to a moving solo.

Cons: Bands can be more costly than DJs. Furthermore, no matter how good the band is, they will never have the repertoire of a standard DJ. And if you want to hear a song exactly as the original artist performed it, you might not get it.

DJ

Pros: If there are a dozen songs you want to hear at your wedding, your DJ will most likely be able to locate each track. In addition, DJs are typically less expensive than bands. A DJ with a charismatic stage presence and strong emcee abilities can really set the tone and keep the party going.

Cons: Improvisation is difficult on the other end of the spectrum if, for example, your father is dragging behind tempo on the father-daughter dance or your nieces and nephews decide to request the "Chicken Dance."

LIVE BAND SIZES

Every musician you bring in improves the band's sound and versatility. The most important factors in determining band size are usually budget, the amount of space we have available for the band's footprint, and the type of event you are planning.

3-4 piece - Best for more intimate gatherings where dancing is not a priority.

5-piece - Great sound on a budget. This is the smallest band I would suggest if you want to fill the dance floor. This will feature one vocalist with guitar, keys, bass, and drums.

6-piece - We add a second singer, so you have both male and female vocals! This allows for more energy, variety, and background vocals. It also takes a bit of pressure off of the lead singer, who is generally in charge of making any announcements, coordinating with the event planner, etc.

7-piece - Two singers and one horn. Horns will add a fun element and energy to your event.

8-piece - Two singers and two horns! If you love the horn sound, two horns will sound 10 times as big as one!

9-piece - Two singers and three horns! This is a full horn section sound, and our most popular full band package. This package is great for those who want to throw a real party.

10-piece or more - We can add additional singers, horn players, or percussion upon request. The more the merrier!

LIVE BAND SERVICES

Ceremony
Musician -
Violinist or
Saxophone

- 4 song selections
- Processional song

WEDDING PLANNING

Wedding Planning & Design

Our full-service wedding planning package.

We work closely with you to create the wedding that reflects who you are. We take our time to listen to your likes, dislikes, and vision for the day (or entire weekend). And if you don't have a vision, we help you create one!

Every detail of your wedding will be designed, organized, and executed with care. Our goal is to allow you to truly immerse yourself in your wedding day, enjoying the beautiful environment and love surrounding you.

WEDDING PLANNING

Wedding Design

Our full-service design package.

We work collaboratively to understand your style, design preferences and venue and create a unique wedding design that's true to you as a couple.

We specialize in pushing the design envelope and love working with clients who are willing to push the envelope of style to wow their guests with a memorable and beautiful day.

WEDDING PLANNING

Day of Coordinator

We work collaboratively to coordinate your wedding day, through communication with your design preferences and venue and create a unique wedding design that's true to you as a couple.

Includes consultation 2-5 weeks prior to your wedding date

WEDDING TIMELINE

SAMPLE WEDDING TIMELINE WITH BAND

1. Ceremony (30-60 minutes)

- Guests arrive and are seated
- Pre-ceremony music played by the live band
- Processional music played by the live band
- Ceremony proceedings, including any readings, vows, and the exchange of rings
- Recessional music played by the live band as the newlyweds exit

2. Cocktail Hour (60 minutes)

- Guests enjoy drinks and hors d'oeuvres
- Live band plays background music

3. Reception (4 - 5 hours)

- Grand entrance of the wedding party, accompanied by the live band
- First dance of the newlyweds, accompanied by the live band
- Dinner service begins
- Toasts from the best man and maid of honor
- Live band plays dance music for guests to dance
- Cake cutting ceremony
- Bouquet and garter toss, if desired
- More dancing with live band
- Last dance of the evening

4. Post-Reception (Optional)

- After-party for guests who want to continue the celebration
- Live band can continue playing or a DJ can take over

Of course, the exact timeline will depend on the specific wedding and the preferences of the couple. It's important to work with the live band to coordinate timing and ensure that everything runs smoothly on the big day.

WEDDING TIMELINE

SAMPLE WEDDING TIMELINE WITH DJ

1. Ceremony (30-60 minutes)

- Prelude music as guests arrive
- Processional music for wedding party and bride's entrance
- Special music during the ceremony (if desired)
- Recessional music as the newlyweds exit

2. Cocktail Hour (60 minutes)

- Background music while guests mingle and enjoy cocktails and hors d'oeuvres

3. Reception (4 - 5 hours)

- Grand Entrance of wedding party
- First Dance
- Dinner service with background music
- Toasts/Speeches
- Father/Daughter and Mother/Son Dance
- Open dancing for guests
- Bouquet/Garter toss
- Cake cutting
- Last Dance and Farewell

4. Post-Reception (Optional)

- After-party for guests who want to continue the celebration
- A DJ can play series of party playlists

Your DJ will typically help you plan out the timeline and coordinate with the other vendors to make sure everything runs smoothly. Be sure to communicate any special requests or changes to the timeline as early as possible to ensure a stress-free wedding day.

HOW TO BOOK

STEPS IN BOOKING

Quote

Please provide as much detail about your event as you can at this stage so that we can give you an accurate quote. We will send a formal personalized quote when you confirm a date and venue. You can upgrade your band at any time. Our prices include tax, insurance, and all sound equipment for standard events.

Deposit

Once you are happy with the quote, you can make a 20% deposit to reserve the date, and initiate the pre-event band logistics. Payments can be made via direct deposit, credit card, check

Details & Schedule

Once you have made your deposit, the band or DJ is confirmed for your date! From this stage, we'll start gathering more details about your event via your Music Finals Form. It will guide you through all of the information that we need to run the night smoothly. You can alter your event details whenever you like, but we would suggest having all your music plans finalized at least 4 weeks before your event date. Every time you change your details online, we will be notified and will manually check it over in detail for you. If you have to make significant changes to the schedule within two weeks of your date, please call us to discuss.

HOW TO BOOK

STEPS IN BOOKING

Confirmation of all details

Once your details are complete we will schedule a final call to review everything together. After our final review, we will send all of the final logistics to the band; so you should wait until your schedule is set in stone before our final review. This will help us keep communication clear and ensure everything goes smoothly.

On the day

The band/DJ will usually arrive at your venue 30-90mins before the start time you give us. This will depend on the size of band you require for the night as very large bands may require more time for set up, especially if an industrial lighting rig or premium sound is required. Please check to make sure that your venue is OK with the band arriving before your event starts.

On the night

During the event, the band will liaise with your planner to ensure that the night runs smoothly. The schedule will usually stray somewhat over the night, and your planner will keep us up to date. We do our best to help it run tight; but, in general, the band takes orders from the planner, and we rely on their judgment when they tell us to start or stop playing. When they tell us to do something, we usually assume that it is OK with you, too, and that the planners have the most up-to-date information for all the vendors.

HOW TO BOOK

STEPS IN BOOKING

Final Payment

The final payment is due two weeks prior to your event. Detailed instructions and final balance are available on your Event Dashboard. Please note, when you pay your final balance via credit card, the total will include a convenience fee. You can avoid this fee by using direct deposit or any of the other options available. The band cannot accept checks on the night.

ADDITIONAL INFO

Lighting

We offer a wide variety of lighting options for your band and for your venue. Our base prices do not include lighting for the band. If you'd like to add lighting, please speak to your producer.

Sound System

Standard sound equipment is included in our basic quotes. For larger events or festivals (more than 300 people and up to 10,000 people), we may recommend hiring our premium sound rig.

Electricity

For 9pc bookings and below, we will require a minimum of 60amps of dedicated power within 20ft of our equipment. If this isn't possible at your venue, then please let us know in advance. Most power issues are easily solved with a few extra extension cords. We also have affordable options for generators if needed. For larger band sizes (10+), please speak to your producer about electricity requirements.

Band Meals

Our contract specifies that the band requires a hot meal at the venue. The musicians usually drive and set up for most of the afternoon, and it is unlikely that there will be time to grab a meal elsewhere. No cold sandwiches please, a well-fed band plays better! We can eat at any time during your booking window, or immediately preceding your booking window. We can eat wherever is most convenient, as long as there is adequate space for the band members to sit and enjoy their meal.

ADDITIONAL INFO

Stage

We do not provide our own stage; however, we can set up on any hard, dry surface where there is adequate space for the size of band you choose. If you'd like to rent a stage for us, your venue will almost always be your best resource for a stage rental. A stage is a nice visual consideration, but it is not required and the band is going to sound great either way! Here are some approximate footprints for the various band sizes:

3-4pc band : 8'x12'

7-9pc band : 12'x20'

5-6pc band : 12'x16'

10-14pc band: 12'x24'

Band Personnel

We pride ourselves on customizing our musician lineup to your musical tastes and overall style of your event. Please provide us with a general idea of the genres and artists you prefer. We have a thorough knowledge of our musicians, and we're happy to help in placing you with a fantastic lineup!

We do need to mention that we cannot absolutely guarantee individual musician requests. In fact, no band or entertainment group of any kind can. As with any job, no one can guarantee their own health, welfare, family health, or personal life direction throughout the course of a typical long term booking. That said, all of our musicians are highly dedicated individuals who very rarely need to miss a performance. In the case of an unforeseen emergency, we will replace a musician with another prepared and vetted member of our group (we never use an outside "sub" as many other bands do).

DJ/MC GENRES

Below is a list of the most popular genres played at DP3 Band Weddings. Please choose the genre(s) of music you would like played during wedding reception.

- | | |
|---|--|
| <input type="checkbox"/> Swing/Big Band | <input type="checkbox"/> 50s, 60s Rock N' Roll |
